Friday 12/24/10
and the entire next week
12/27-12/31/10

A Season of Peace

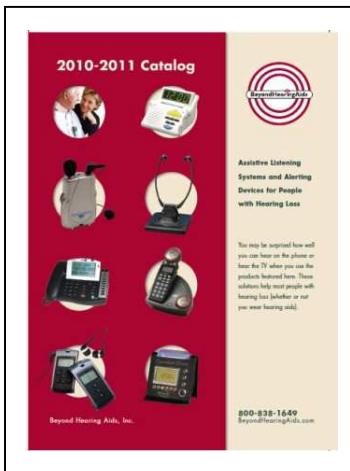

Whew.... We've reached the end of 2010. Your work environment is likely more stressful than ever. You are working with clients who are struggling to find their place in today's reality. All the while you are trying to do more with less and still meet everyone's needs.

So now, more than ever, I hope you find peace in your traditions, your family and your faith this season.

My wish is that your search for peace during the holidays will restore you. Everyone here wishes you peace, rest and renewal during this season as we all look forward to the new year.

Becky, Ann and Vicki

Our New Catalog Is On Its Way!

We will be testing some of the new products in our 2010-2011 catalog and we will tell you what we think of these products in future newsletters. Look for your catalog to arrive in the next few weeks. If for some reason you do not receive your copy, please call us and we will send one out to you right away. Several of the new products are not yet available, so we have included a page of backordered product availability dates and other corrections.

All references to catalog pages in this newsletter refer to the 2010-2011 catalog that is on its way. Call us any time that you need information on any products in our catalog – new or otherwise. We are happy to answer your questions about the products and their usefulness in any given situation. If we don't know the answers to your questions, we will find the answers and will call you back as soon as possible.

Sonic System SS1200c – Sonic Alert's Complete Home Signaling Solution

The Sonic System alerts you to the doorbell, telephone and alarm clock now in *four rooms*. The alerting system includes Sonic Boom Alarm Clock/Receiver with bed shaker, Wireless Doorbell/Telephone Transmitter, Basic Remote Receiver, and Sonic Blink Strobe Receiver. The Blink alerts you with a 360° super bright strobe light. This receiver is great in a room that does not have a lamp, such as a kitchen or bathroom.

The system is a great value. If purchased separately, the system would cost \$281.80. By purchasing the Sonic System you save \$91.85. This starter system can be expanded to unlimited rooms by adding additional receivers.

**SA-SS1200C/B
\$189.95**

Alternatives to Video Baby Monitor

The Graco True Focus Video Baby Monitor (HC-IMONITOR/VID) has never made it to production and will not be available in the future.

The Graco imonitor Vibe Vibrating Baby Monitor (HC-IMONITOR \$59.95, page 97 in 2010-2011 catalog) is one alternative, as well as the **Silent Call system with the Sound Monitor/Transmitter** (see pages 92-93), or the **Sonic Alert system with the Baby Cry Transmitter** (see pages 86-87).

Call us and we can help you decide which system will be best for your situation.

ALD News

Discontinued Products (see articles above and right for alternatives):

Private Page products have been discontinued. It is remotely possible that they will return, but there is no evidence of them returning in the near future. At this time, we have no alternative products to this paging system other than cell phone texting. If you have a need for a pager, call us and we will try to come up with an alternative solution.

- HC-IMONITOR/VID – video baby monitor (page 97)
- SHA-SA3 – Shake Awake Vibrating Alarm Clock (not in 2010-2011 catalog)
- SHA-TTT – Triple Bel Timer (not in 2010-2011 catalog)
- HC-BTLOOP/L1 & HC/BTLOOP/L2 – Bluetooth neckloops (page 2)

Some Alternatives to Discontinued Products

The Shake Awake Vibrating Alarm Clock (SHA-SA3) is discontinued. Sonic Alert Sonic Shaker (SA-SBP100 \$29.95, page 77) is a very good alternative battery-operated travel size alarm clock.

The Triple Bel Timer (SHA-TTT) is no longer available. There are two alternatives available in our new catalog. Klip! Vibe Mobile Timer (HC-KLIPVIBE \$19.95, page 76) uses silent vibration and/or audible alerts for dual countdown timers. This timer also has clock and stopwatch functions.

The Invisible Clock/Pager (HC-ICLOCK \$39.95, page 77) vibrates or beeps to alert you. Up to 12 different alarms can be set to vibrate or beep at different times. There are six unique alerts that can be set from 2 seconds to one hour. Vibration intensity is adjustable, and there are various settings for the beeps, making this timer very versatile for those with all levels of hearing loss.

The Linear Bluetooth Neckloops (HC-BTLOOP/L1 & HC/BTLOOP/L2) on page 2 have been discontinued. These were very economically priced. The closest alternative we have is the Williams Sound CM-BT (WS-CMBT \$149.00). This product unfortunately did not make it into our new catalog, though it can be viewed on our website www.beyondhearingaids.com. Click the shopping cart – this product is shown as a featured product on that page. You can also access it by clicking “Cell Phones and Accessories” on the left after clicking the shopping cart. Read more about this product in the September 2010 issue of our newsletter, available on our website on the home page, under ARCHIVES.

As always, call us with any questions you have regarding replacement products for any discontinued or backordered products. We will be happy to assist you.
