February 14
Happy Valentine's Day!

President's Message

Becky Morris, President

I thought we'd take a break from the listing new technology and get a bit sentimental. Actually, now is a good time to list some products that people have chosen in the past during Valentine's week. In these economic times, giving the gift of closeness with a PockeTalker or a good telephone will have as much meaning as the traditional box of chocolates. Come to think of it, both wouldn't hurt.

The Sonic Bomb clock has got to be a one of the best sellers. It is an unusual gift for guys (and girls) and I have found this clock on the some crazy websites geared towards guys and techies. Who knew?

Now's the time I want to tell you how great it is to work with you and help you provide ALDs to your clients. Happy Valentine's Day.

Gifts for Your Sweetie!

Sonic Boom Sweetheart Alarm Clock with Bed Vibrator (for her)

This hot pink Sonic Boom sweetheart alarm clock from Sonic Alert features a unique multi-colored display, flashing alarm light and a powerful bed shaker. It works with 110 or 220 volts (220 volt adapter not included). The Sweetheart has a loud, 113dB adjustable tone/volume alarm, Hi/Low dimmer switch, battery backup and snooze. Sound and vibration notification only. Dimensions: approximately 4-3/4" W x 4-1/2" D x 5-1/2" H

SA-SBH400SS \$42.95

Sonic Bomb Alarm Clock with Bed Vibrator (for him or her)

Also known as "The Bomb," this clock has been designed for guys of all ages (some gals like it, too!). Designed with a stealth gray color and red controls, it has a dimmer switch for seeing the display at night, pulsating alert lights and a powerful super-charged bed shaker for those who can't hear the alarm or are deep sleepers. The Bomb features a turbo-charged 113dB extra loud audio alarm. It comes with a 110 volt power supply, and will also work with an optional 220 volt power supply for England or Western Europe (see Optional Accessories below). The Bomb has Hi/Low dimmer switch, snooze, and battery backup. Sound and vibration notification only. Dimensions: approximately 5-1/2" W x 3-1/8" D x 5-1/2" H

SA-SBB500SS \$42.95

**Can't hear your loved one? Or he/she can't hear you?
Consider these for good listening:**

Clarity Professional C4220 Amplified Phone

The Clarity Professional® C4220™ amplified 5.8GHz cordless phone, featuring Digital Clarity Power® (DCP) technology, has up to 50 decibels of intelligent amplification. Featuring a handset speakerphone, backlit buttons and a large white easy-to-read LED screen, the C4220 is a feature-rich solution for those with a moderate-to-severe hearing loss or low vision. One year warranty.

This phone has adjustable volume and four (4) tone settings for a customized listening experience, Boost Button, Call Waiting, and Caller ID with 40 name and number memory. It has visual ringers in the handset and base for incoming calls, with an extra loud ringer that amplifies up to 88dB. You can add up to three (3) expandable handsets (CL-C4230HS , \$119.95). It has a 3.5mm neckloop jack and a 2.5mm headset jack, and is hearing aid compatible.

CL-C4220 \$199.95

Pocketalker Ultra Amplifier Duo Pack System

There are other personal amplifiers available, but we always come back to the Williams Sound PockeTalker, believing it is still the best! The Pocketalker Ultra amplifies sounds closest to the listener while reducing background noise. It features a lightweight, ergonomic design for portability and ease of use. Fingertip adjustable volume control allows you to quickly adjust to your listening environment - whether your hearing loss is low frequency or high frequency sounds. This duo system includes a single mini earbud and deluxe folding headphone. PockeTalker is also available with any one of a variety of earbuds, earphones, or headsets. (Available with a neckloop for \$169.00) The Pocketalker has a five year warranty, your assurance of quality and satisfaction. Ninety day warranty on accessories.

**WS-PKTD1-EH
\$139.00**

Pocketalker Ultra uses 2 AAA alkaline batteries for 100 hours of typical usage. It has a low battery indicator, external volume control, and external tone control. The PockeTalker includes a 12-foot microphone extension cord, two AAA alkaline batteries, and lanyard.
