President's Message

Becky Morris, president

March of the Conferences

March is the beginning of the conference season. Calls for proposals, early registrations, and travel planning must all begin. That means traveling begins soon for me to state and regional association meetings, group technical training and national organization conferences.

I started thinking. What kind of training would you like to see from me? Most of my ALD workshops are broad and include up-to-date information and that's great for 1.5-hour workshops. **WHAT WOULD YOU LIKE TO LEARN MORE ABOUT?**

You can help create dynamic training based on your personal needs. Give me feedback. Here's to a great conference season for all of you who must attend them.

Training Topic Contest

I want your opinions. I need specifics. I need your feedback and am willing to bribe you with a contest!!!

- What would you like to learn about through this newsletter or through a teleseminar?
- If I did a teleseminar, how long would you want it to be to fit into your schedule? (30 minutes, 1 hour?)
- Would you like 15-minute videos on a specific product line?
- What is missing from training to make you more comfortable with ALDs?
- Do you need success stories?
- Do you want a monthly question and answer video?
- Would you like conference notes from those who attend conferences?

The Bribe

Here's the bribe: Send me your ideas, responses, comments etc. by March 19, 2008. Three winners from a random drawing on March 19 will receive the popular and useful SONIC SHAKER alarm clock with powerful vibrator and easy to read display. It's a \$30 value! See next page for alarm clock details!

E-mail Beckym@beyondhearingaids.com or go to the website to submit your ideas. Put **TRAINING TOPIC** in the subject line.

SA-SBP 100 \$29.95

The Prize! Sonic Shaker Alarm Clock

Wake up by the powerful bed shaker and/or extra loud pulsating alarm so you won't ever sleep through appointments, work or school. The Sonic Shaker travel alarm clock comes complete with batteries, pillow strap with clasp and a protective travel case. One-year warranty.

New! UltraClear Sound Shaping TV Listening System

Clearsounds TV Listening System CS200M is redesigned and back in stock! One of the really unique features of this device is the individual volume control in both the right and left earpieces to accommodate different hearing requirements. It is also designed with the UltraClear™ sound shaping technology that uses top of the line components to shape the sound and reduce or eliminate distortion.

- Compatible with over 5,000 movie theaters in the US
- Individual volume control in both right and left ear pieces
- Wireless coverage up to 50 square feet
- Works with regular TV, cable TV, satellite and stereo system
- Operates at the industry standard of 95 kHz
- Headset operates on 2 AA batteries (not included)
- System includes: 1 transmitter and AC transformer, 1 headset receiver, 2 audio cords and external microphone
- 1-year warranty

Clearsounds TV Listening System HT-CS2000M \$99
