

# BeyondHearingAids Newsletter

Bringing ALD Solutions to Professionals and Consumers

May/June 2003

## New BeyondHearingAids.com Website

*You can use the website as an online tool while your clients are in the office.*

The goal of this newsletter is to provide tools, resources and information to help professionals be more successful in recommending ALDs.

**I updated the Cope with Scopes report and it is currently featured on these sites: Check it out!**

[www.Audiologyonline.com](http://www.Audiologyonline.com)  
[www.HealthyHearing.com](http://www.HealthyHearing.com)

The [www.BeyondHearingAids.com](http://www.BeyondHearingAids.com) website has been revamped with updated features and easier-than-ever navigation.

Visit today and if you haven't already requested email notification of this newsletter, go to the ALD Newsletter section in the professional section and sign up now. You'll know immediately when it's ready for you!

Are you aware that your clients can order directly from our online store for any personal items that may not be covered under your services?

That includes extra receivers for ease of alerting use, TTY paper, accessories for their personal listening systems and for TV Listeners.

Watch the website for Anniversary specials.

*We'd like to thank our customers and partners for the privilege of serving you for 10 years.  
Thank you!*

## Bilsom Hearing Protection Headphones

These are active circuitry noise attenuating hearing protectors that amplify sounds in the speech range. They feature:

- Front facing microphones for optimum directional hearing
- Signal input in stereo
- Sound level limit of 82dB(A)
- Weight 324 g.
- NRR 23, CSA Class B

BIL-707 retail for \$208.76 and we try hard to keep these in stock for you because of long lead times.

This is a publication of:  
Effective Communication  
Solutions, Inc.

## Featured Products

### The Voice Tester . . . .

### Test amplified phones without using a phone line

This unit allows you to plug a telephone into the line jack and cause a pre-recorded message to play that will allow you to test an amplified phone without tying up a phone line. Excellent for offices with digital phone lines.

There are limited quantities of this device because the manufacturer has discontinued production. Once they're gone, they're gone. There is no warranty-except our 30 day. We are giving our current customers first chance to get these while they last.

The price is \$45.50 (includes 5.50 shipping).

We use this unit in our office with a 5 way phone splitter that allows us to plug in several phones at the same time. Let us know if you want one!

### Other Product Notes –

Watch for new and upgraded Hatis Products for cell phone and cordless phones. We'll let you know the changes as they occur. New Sonic Alert alarm clocks are available that are different versions of the tried-and-true Sonic Boom.

### The ESCOPE electronic stethoscope – new specialist heads....

The ESCOPE now has two specialist heads to choose from that provide superior sound transmission. One is a bell and the other is a diaphragm. They are \$50 each and can improve the sound clarity of the ESCOPE. If your client is in cardiac care or pediatric care, then these heads may be worthwhile.

On-line Newsletter – This newsletter is in the Resource Center of the BeyondHearingAids.com website. You can subscribe to an email alert when the newest issue is available. To subscribe: <http://www.beyondhearingaids.com/Newsletter.htm>

Effective Communication Solutions, Inc. meets the needs of professionals who work with people with hearing loss. They provide practical, knowledgeable support and training on ALDs. ECS, Inc. leads the industry in technical training, sales and support of ALDs to vocational rehabilitation counselors and hearing professionals who choose and use assistive technology.
