President's Message

Becky Morris, President

Top Holiday Wish: Better Hearing

What are the life changing events that come with having a hearing loss? People flooded the HOH message board with various replies such as "Not getting the promotion" or "Feeling misunderstood." A grandfather wrote, "Missing what my granddaughters are saying."

The products featured here are designed to help people hear better. For people with hearing loss, there is no greater gift.

Sonic Shaker Portable Vibrating Alarm Clock

Wake up with the powerful bed shaker and/or extra loud pulsating alarm. Never again will you sleep through appointments, work or school. This alarm clock comes complete with batteries, pillow strap with clasp, protective travel case and a 1-year warranty.

SA-SBP100 \$29.95

WS-PKTD1- EH
\$179

PockeTalker Ultra with Headset and Earbud

The PockeTalker Ultra is one of our top five hot sellers. It is a personal amplifier that consists of only a microphone, amplifier, and wire. With the PockeTalker, it's easy to hear in noisy cars and restaurants – because your companion's voice is amplified instead of the background noise. This version comes with both a headset and earbud at no extra cost.

Sennheiser Infrared TV Listening System

Enjoy great sound quality with a lightweight headset and comfortable ear tips. You can separately set the volume level for the left and right ear. This affordable TV viewing and music listening system operates on 2.3 MHz transmission frequency and comes with a 2- year warranty.

HC-SET50TV
\$119

AMER-HA40 \$34.95

In-line Phone Amplifier

Add this battery operated amplifier to just about any corded phone at home or work and get an immediate 40 dB gain. The HA40 is an excellent choice when you must use different telephones and higher power.

Promising New Products!

Clarity CL-C4230
\$269.95

Clarity Cordless Phone with Dual Speakerphones and Answering Machine

Available late 2007 (call for availability)! Add up to 3 expandable handsets

- Digital answering machine with adjustable speed playback and remote access
- Dual speakerphones (handset and base)
- Quality sound – 50 dB of intelligent amplification (to make conversations clearer - not just louder)
- Concave earpiece creates an acoustic chamber and comfortably accommodates hearing aids
- Four tone settings
- Call Waiting/Caller ID
- Well spaced backlit buttons make dialing easy
- Ports for optional accessories (bed shaker and wireless remote lamp flasher)

Clarity Cordless Phone with Handset Speakerphone

All the great features of the C4230 minus the answering machine, base speakerphone, and ports for optional accessories. Available late 2007!

Clarity
CL-C4220
\$199.95

Krown Amplified Cordless Phone

This 2.4 GHz cordless phone amplifies up to 53 dB. It has an adjustable ringer, tone control, Caller ID, 2.5 mm headset jack, 3.5 mm neckloop jack, and 2 ports for signalers. It can be programmed for 3 direct call numbers or locked to call one pre-programmed number. It has a ring indicator on base and handset.

KM-KCS50i \$189.95

Discontinued Products

Panasonic cordless phone – TD-KX-TG2386B

Amplified cordless phone 5.8 GHz – HC-PHONE5

Clarity phone with outgoing voice amplification – AMER-XL25S

Sonic Alert wired doorbell signaler – SA-DS700

A Book is a Welcome Gift!

Becky's book, *On the Job with Hearing Loss*, helps individuals and professionals find successful workplace accommodations. Becky has performed over 1000 communication assessments and trained hundreds of counselors. In this book, she finds strategies and accommodations for nearly every occupation. **OTJ \$29.95 (Quantity discounts are available).**
